

BLOOM VASE

Perfectly imperfect.

An oversized and sculptural vase that leans into the uniqueness of artisanal craftsmanship. These undulating curves are the remnants of each maker's passion – asymmetrical, textural and made by hand. The origin story passes to the home, for the chapter to continue.

Using a resin mould, a concrete base is added to the piece for weight and stability. To achieve the off-white colouring, a polymer plaster finish is hand-brushed onto the mould – up to three coats of plaster for each piece, resulting in the multi-layered, inviting finish.
