

COCTEAU MIRROR

Proportion and function.

Elevate the mirror to a more artful, essential place. Commanding the room with its hand-sculpted frame, personal tales from the maker are embedded in each groove. Made to manipulate the space but not the stories that unfold.

To achieve this bold and off-white-coloured form, a resin mould is layered with a polymer plaster finish. Applied with irregular brushstrokes, the finish is visible on all exposed sides. After each coat, the plaster is cured by fan-drying, repeated up to three times to achieve the desired depth and strengthen the surface finish.

DIMENSIONS **S** 1250w x 100d x 1500h. Frame width 320. (17.5kg approx.)

L 1530w x 100d x 2510h. Frame width 320. (45kg approx.)

SPECIFICATION

- Resin frame and backing in white plaster
- Clear mirror glass
- Anti-tip kits are recommended for the safest results
- Recommended for indoor use
