DUNE LAMPS

Past meets future.

Balancing solidity and softness, the piece carries a sculptural presence – its curved form shaped by hand to introduce depth and variation across the surface.

Formed from a resin mould, layers of polymer plaster are applied and worked with irregular brushstrokes. Each coat builds texture, allowing subtle variation to emerge across the form.

The off-white finish is developed through repeated applications and curing, resulting in a surface that feels both structured and expressive.

DIMENSIONS	**S**	280w x 190d x 530h (Approx. 5kgs.)
	L	400w x 230d x 750h (10kg approx.)

SPECIFICATION

- Resin with white plaster finish
- 1x Max 25W 240V E27 Lamp (light bulb not included)
- White switch and plug
- Plaster finish can be delicate and care should be taken on all edges to avoid chipping or peeling of the finished surface
- Not suitable for external areas or wet areas
- Recommended for indoor use
- This piece is delivered in a foam-lined carton. Packaged dimensions: 310w x 220d x 560h for small and 430w x 260d x 780h for large
