

## DUNE SIDE TABLE

*The daring accompaniment.*

More than a side piece, this smaller-scale table takes up space and holds its own. A solid and shapely hand-pressed cement statement, fusing delicate curves with structure and archaic influences with the modern.

To create this monolithic piece, bleached concrete is hand-pressed and moulded, forming the bone-like structure. Once dry, the concrete offers an off-white colouring and a slightly porous surface. Pair this with the Dune Dining Table or Dune Seat to complete the collection.

**DIMENSIONS** 490w x 400d x 510h (30kg approx.)

**SPECIFICATION**

- Hand pressed concrete
- Off white porous texture
- Recommended for indoor use
