

JOSHUA DOUBLE LAMP

Illuminate with boldness.

Shaped by hand, the lamp carries a strong, grounded presence – its form unfolding through soft curves and irregular edges.

Formed from a sculpted resin mould, layers of polymer plaster are applied and worked across the surface. Each coat is brushed by hand, allowing texture to build and settle naturally.

The result is an off-white finish with a subtle grain, giving depth to the surface while softening the overall form.

DIMENSIONS 900w x 450d x 2050hv (22kg approx.)

SPECIFICATION

- Resin with white plaster finish
- 2x Max 25W 240V E27 Lamp (light bulb not included)
- White switch and plug
- Plaster finish can be delicate and care should be taken on all edges to avoid chipping or peeling of the finished surface
- Not suitable for external areas or wet areas
- This piece is delivered in two foam-lined, hard-wood crates – 740w x 300d x 1280h and 900w x 450d x 1180h
