

JOSHUA DOUBLE LAMP

Illuminate with boldness.

A lamp that stands with confidence – a focal point and functional feature. Moulded and painted by hand, the loudest voice is in the details, tempting conversations that linger well into the evening. Basking beneath the branches of its shapely figure.

The hand-sculpted resin mould ensures the desired asymmetrical, slightly abstract object. To achieve the off-white colouring, a polymer plaster finish is applied – hand-brushed onto the mould with up to four coats per piece. Thick bristles add a grainy texture to the surface. This lamp is part of the Joshua Collection, designed to pair with either the standing or table lamps.

DIMENSIONS	730w x 460d x 2235h (22kg approx.)
